

California Institute for Regenerative Medicine (CIRM)

Senior Officer for Medical & Ethical Standards

CIRM, which was established as a result of the passage of Proposition 71, the California Stem Cell and Cures Initiative, will provide up to \$3 billion over ten years in grants and loans to California research institutions for research on stem cells.

We seek a Senior Officer under the general direction of the President, to provide senior level professional support for the Scientific & Medical Accountability Standards Working Group (Standards Working Group). The Standards Working Group is charged with making recommendations to the 29-member Independent Citizens' Oversight Committee (ICOC) that governs the Proposition 71-funded California Institute for Regenerative Medicine on scientific, medical and ethical standards pertaining to research funded by the Institute. In addition, the Working Group makes recommendations to the ICOC on modifications to, and compliance with adopted standards. The incumbent will serve as senior staff support and liaison between the Standards Working Group and the President. The incumbent will work closely with the Standards Working Group Co-Chairs to plan and implement Standards Working Group meetings and will also draft, edit and prepare reports issued by the Standards Working Group.

Qualifications:

- Formal post-graduate training and/or extensive experience in one or more of the following: law, ethics, biomedical sciences.
- Knowledge of legal and ethical issues surrounding stem cell research.
- Understanding of historical and current trends in the field of stem cell research.
- Demonstrated ability to simultaneously manage multiple, complex projects in varying stages of development under time pressure.
- Ability to handle negotiation and work as part of a team.
- Demonstrated excellent organizational skills and the ability to plan and act independently on projects with minimal supervision, creating and meeting deadlines.
- Comprehensive analytical, strategic thinking and problem solving skills.
- Excellent written communication skills.
- Ability to work positively and effectively with persons possessing high degrees of scientific, medical and technical knowledge within large complex groups.
- Ability to work in a fast-paced environment.

HOW TO APPLY: Interested candidates please submit:

- Cover letter
- CV/Resume
